

target solar company

Semi-flexible Solar Module

Features :

Target Solar uses special solar cells to make the Flexible Solar Modules. Unlike the traditional solar modules made of glass and aluminum frame which serve the purpose of protecting the solar cells from cracking, Flexible Solar Modules are much lighter and thinner. Target Solar's Flexible Solar Modules are tested to be extreme weatherproof, with lifespan of 25 years. No more worries of glass breaking or cell cracking. Make your solar installation much easier today and change to Flexible Solar Modules.

Weatherproof

-40~80° C

25 years life span

output 5yrs product warranty

Light-weight

1Kg · 3mm

Easy installation

Applications

- solar canopy
- golf cart
- car, truck, trailer
- carport
- boat/yacht
- portable solar charging solutions
- rescue power need
- solar roof
- greenhouse

Model	Pwer(W)	Size(mm)	Voc(V)	Isc(A)	Vmp(V)	Imp(A)	Cell Eff.	N.W(KG)
